

This is how we teach and learn at Gingin District High School

Hook Into Learning

Students will be engaged, informed of learning goals and the link to other learning through:

- Demonstration of expected excellence in outcomes
- Revision of previous learning
- Rubrics & matrices
- Learning intention
- Games & activities
- Digital learning

Teachers Teach

Teachers will explicitly teach knowledge, skills and processes through:

- Gradual release – I do
 - Modelling
- Explicit instruction
 - Differentiate
 - Scaffolding & frameworks
- Questioning for understanding

Cooperative Classroom

Students work together to develop their skills and knowledge through:

- Gradual release – We do
 - Peer tutoring
 - Partner work
 - Group work
- Team games

Practise and Perform

Students will individually develop their skills and knowledge through:

- Gradual release – You do
- Hands-on activities
 - Individual work
 - Presentations & assignments
- Multiple ways to show understanding
- Higher order thinking
- Inquiry & problem solving

Feedback and Reflection

Teachers will provide feedback and students reflect on their learning through:

- Rubrics & matrices
 - Marked work
- Communication to parents
 - Discussion with individual students
 - Goal setting
- Reviewing learning intention
